VP of Engineering and Technology

About Us:

The world is changing. This is your opportunity to work with a new start early and contribute to the company's growth strategy within the real estate industry. FB Technologies is an intelligent data company connecting customers with top local real estate agents for transactions. Our mission is to support the growth of local real estate agents by serving as their trusted lead-generation service provider.

We are excited to present a unique opportunity limited to one candidate to join our company. At FB Technologies, we foster a collaborative environment and offer unlimited potential for personal and professional growth.

Location:

New York, NY – Remote/Hybrid/Part-Time/Full-Time

Job Summary:

Are you a visionary computer scientist and software engineer who thrives on solving complex problems and pushing the boundaries of technology? We are seeking a brilliant mind to join our dynamic team, someone who is not only adept at writing code but also excels in innovative thinking and cutting-edge development, and is excellent in leading a development team.

As our VP of Engineering and Technology, you will be responsible for creating a technical roadmap for a company by aligning the vision of the business with the technical framework to achieve that vision. This involves a keen understanding of engineering processes to strike a balance between efficiency and quality to provide the best outcomes for a business. Your work will look at key performance indicators and clear goals for the company to deliver positive results.

Responsibilities:

- **Innovate and Lead:** Design and develop groundbreaking software solutions that address real-world challenges. Lead projects from concept to deployment, ensuring top-notch quality and performance.

- **Complex Problem Solving:** Tackle the toughest technical problems with elegant, efficient, and scalable solutions. Your analytical skills will be key in debugging, testing, and optimizing code.

- **Collaborative Development:** Work closely with cross-functional teams to integrate software components, improve system architecture, and enhance user experiences. Communicate technical concepts to non-technical stakeholders effectively.

- **Continuous Learning and Improvement:** Stay ahead of the curve with the latest advancements in technology and software engineering practices. Continuously improve your skills and mentor junior engineers to foster a culture of excellence.

Qualifications:

- **Advanced Expertise:** Proven track record in computer science and software engineering with deep knowledge of algorithms, data structures, and software design principles.

- **Programming Proficiency:** Mastery with modern frameworks, libraries, and tools as React, Node, Next, Tailwind, Typescript, Rest API, etc. Experience in multiple programming languages such as Python, Java, C++, or similar.

- **Innovative Mindset:** Ability to think outside the box and bring new ideas to the table. Experience in AI, machine learning, blockchain, or other emerging technologies is a plus.

- **Proven Experience:** Several years of professional experience in software development, with a portfolio of successful projects and contributions to high-impact products.

- **Academic Excellence:** Bachelor's, Master's, or Ph.D. in Computer Science, Engineering, or related field. Strong academic record and continuous learning ethos.

- **Team Player:** Excellent communication skills and a collaborative approach to problem-solving. Ability to thrive in a fast-paced, team-oriented environment.

Why Join Us?

- **Get In Early:** Join a successful team working on a ground-breaking new real estate startup and get your stock options early!

- **Innovative Environment:** Work on cutting-edge projects that make a real difference. Be part of a team that values creativity, innovation, and pushing the envelope.

- **Growth Opportunities:** Access to ongoing training and development opportunities. Career growth and advancement are integral to our culture.

- **Competitive Compensation**: We offer a competitive salary and benefits package, including health insurance, retirement plans, and more.

- **Work-Life Balance:** We believe in maintaining a healthy work-life balance. Flexible working hours and remote work options are available.

- **Inclusive Culture:** Join a diverse and inclusive workplace that respects and values different perspectives and backgrounds.

Join our team and take your career to new heights - Apply now!
